Supre and Ulta are made from ArcelorMittal steel – the largest steel producer in the world.

26 GAUGE, G90

Steel is durable
Steel roofing products have nearly twice the lifespan of conventional roofing products.

Steel is eco-friendly
Steel can be recycled endlessly, which makes it one of the most environmentally friendly materials.

Steel protects
Our steel roofing products have achieved the highest hurricane wind protection, hail impact and fire safety ratings in the US.
Extreme weather and impact protection
Against hailstorm, rain, snow, heat and wind
Our products have achieved Class 4 ratings according to the UL 2218 Roof Impact Classifications.

Fire protection
We got an “A” in fire protection according to the UL 790 (ASTM E 108) Fire Protection Ratings.

High wind protection
We achieved the Class 90 certification for the UL 580 Wind Uplift Resistance test. We have tested our products at wind speeds over 200 mph.

The quality of our roofs has been recognized and certified by the Underwriters Laboratories. UL is the largest independent testing laboratory in the world. It is dedicated to promoting safe living and working environments.
Covered with the Noble Matt coating, it effectively protects against long-term wear and provides maximum corrosion resistance in any conceivable application.

Stable and constant
The Noble Matt coating not only protects against discoloration, but also functions as an all weather shield.

It says no to re-roofing
Forget about re-roofing. Supre and Ulta will serve you reliably for generations. The steel and protective shield form a really powerful duo of protection.

PROTECTIVE SHIELD
**Simple transport**
One pallet contains over 3000 sq. ft (Supre), 2700 sq. ft (Ulta) of material – enough to cover an average size roof

**Easy to install**
Pre-drilled holes and modular assembly speed up installation and reduce mistakes

**Cost effective installation**
Our products average less than 5% waste during installation compared to industry norms greater than 10%

---

**SUPRE & ULTA ARE EASY TO INSTALL**

**SUPRE**
- Weight of one pallet: 2920 lb
- Quantity per pallet: 350 pcs
- Effective surface area of one pallet: 3032 sq. ft

**ULTA**
- Weight of one pallet: 2650 lb
- Quantity per pallet: 319 pcs
- Effective surface area of one pallet: 2739 sq. ft
Take to the sky with Raven Black

Ravens are very intelligent birds, which played an integral role in the mythology of the indigenous peoples of the Pacific Northwest, as well as art and literature. For many cultures the bird was a religious symbol. Some even believed that it was God. Raven Black. The color of freedom.

Dive deep into the Pacific Gray

The Pacific is the largest and deepest ocean on Earth. It covers almost 1/3 of the earth’s surface. Its depth reaches more than 35 thousand feet. Pacific Gray. The color of mystic nature.

Dare to conquer with Sierra Brown

The Sierra Nevada is a mountain range in the Western United States. Its highest peak – Mount Whitney – reaches an elevation of 14,505 feet. The foothills of this mountain range are home to the California Gold Rush of the 19th century. Sierra Brown. The color of a true conqueror.

Experience Canyon Red – one of nature’s true wonders

The Grand Canyon is the largest river gorge in the world, located in Arizona. It is 277 miles long, about 6,000 feet deep and the home of whitewater rafting. Canyon Red. The color of adventure.
### Supre

- **Effective width**: 3.77 ft (1150 mm)
- **Total width**: 3.9 ft (1190 mm)
- **Weight per piece**: 8.16 lb (3.7 kg)
- **Effective surface area of one sheet**: 8.66 sq. ft (0.805 sq. m)
- **Quantity per pack**: 350 pcs
- **Effective surface area of one pack**: 3032 sq. ft (281.75 sq. m)

### Ulta

- **Effective width**: 3.74 ft (1140 mm)
- **Total width**: 3.92 ft (1196 mm)
- **Weight per piece**: 8.16 lb (3.7 kg)
- **Effective surface area of one sheet**: 8.59 sq. ft (0.798 sq. m)
- **Quantity per pack**: 319 pcs
- **Effective surface area of one pack**: 2739 sq. ft (254.56 sq. m)

Excellent tightness
Flamingo elements are moulded in specially designed, patented moulds. Forget about the leaks when assembled.

Only the best materials
Flamingo was manufactured from GreenCoat RWS (Rain Water System) steel produced by SSAB – a Swedish global steel company. GreenCoat RWS was developed specifically to create high quality gutter systems.

It has a double sided coating and is exceptionally durable. Coatings used in GreenCoat RWS products include polymer grains, which improve the surface scratch resistance.

Evenness for years
Flamingo has a 30-year warranty for the C1-C4 environmental class (industrial and coastal areas with a high aggressiveness of the corrosive environment).

Safe transport and storage
Flamingo elements are factory-protected with foil. We transport it in specially designed packaging and care about the highest standard of storage.
High resistance to environmental conditions
GreenCoat RWS products are a lightweight construction material with a beautiful shine. They are very resistant to corrosion, UV rays and scratches.

Complete steel roof
Flamingo is ideally suited with Worthouse Modular Roofing Tiles.

Easy and fast assembly
Flamingo components are made with care for the smallest detail and fit together perfectly, making the assembly fast and easy.

Extra strong gutter hangers
Flamingo hanger can easily carry weight of 165 lbs.

The system is made of the best quality steel covered with zinc 0.90 oz/ft²

Proven system
It is the best system for metal roofing. Recommended by roofers. Flamingo has been a success for many years.

Gold Medal MTP BUDMA 2010 for the Flamingo Steel Gutter System.

Extreme weather protection against hailstorm, rain, snow, heat and wind

One pallet – one job

Lightweight and easy to handle

Pre-drilled holes enable self-calibration of roof

Easy and space efficient storage

Quick and efficient installation

Roof angle and partially installed roof corrections

Batch-to-batch color consistency guarantee

Less than 5% material waste

Complete set of accesories

High wind resistance

Fire protection – class A degree
